RESEARCH INTERESTS

- **Natural Language Processing:** Large Language Models, Text Correction, Multilingual Translation, Text-to-Speech Systems, Sequence-to-Sequence Models.
- **Artificial Intelligence Applications:** Automated Video Dubbing Pipelines, Real-Time Language Understanding, Multi-modal Learning.
- **Machine Learning Systems:** Real-Time Inference, Efficient Training on Streaming Data, Evaluation and Optimization in Practical Contexts.
- **Reproducible and Scalable AI:** MLOps, Experimental Reproducibility, Scalable Training Pipelines for AI Research.

EDUCATION

2020 – 24	M.Sc. Computer Engineering - Artificial Intelligence and Robotics <i>Institute for Advanced Studies in Basic Sciences (IASBS), Zanjan, Iran</i> • GPA: 15.54/20 (3.11/4). • Thesis: Correction of Space and ZWNJ in Persian Text, using Sequence Labeling with Pre-trained Large Language Models • Mentor: Dr. Ebrahim Ansari • Courses: ML, ANN, DL, Data Mining, Statistical Pattern Recognition
2016 – 20	B.Sc. Information Technology Engineering <i>Institute for Advanced Studies in Basic Sciences (IASBS), Zanjan, Iran</i> • GPA: 16.44/20 (3.25/4). • Thesis: Semi Automated Forex Assistant • Mentor: Dr. Ebrahim Ansari • Courses: ML, NLP, Statistical Models, Intelligent Systems Design

RESEARCH AND WORK EXPERIENCE

REEICO

AI Researcher and Developer

Designed and developed an end-to-end **AI-powered dubbing system** for translating and localizing English video content into Persian. The pipeline integrated automatic speech recognition (ASR), **neural machine translation (NMT)**, **text-to-speech synthesis (TTS)**, and speaker-aware voice cloning. Implemented speaker diarization and alignment techniques. Independently handled the **MLOps** infrastructure, including model training pipelines, version control, containerization, and scalable deployment for reproducible and maintainable research.

Freelance

Freelance Developer and Researcher

Designed and implemented web-based services and AI-driven applications across various domains. Conducted independent research on reinforcement learning and algorithmic trading, developing custom trading algorithms and indicators for the Forex market. Emphasized real-time data processing, predictive modeling, and the integration of machine learning into financial decision-making systems.

SAFA Corp.

Software Engineer and Data Analyst

Developing semi-automated and full-automated robots for the Forex market. Statistical analysis on financial markets. Developing Machine learning algorithms on financial market data.

HONORS AND AWARDS

2020	Rank 21 on the national exam <i>National exams "Concours" for entering M.Sc. studies</i>
2024	Rank 58 on the national exam <i>National exams "Concours" for entering Ph.D studies</i>

SKILLS

Interpersonal	
COLLABORATION	Team-oriented and cooperative
LEADERSHIP	Confident team leader
ADAPTABILITY	Open to others' guidance
MENTORING	Patient and supportive
Programming Languages	
PYTHON	Proficient — ML and scripting
BASH	Proficient — automation and CLI tools
C/C++	Advanced — systems and performance
HTML/CSS	Advanced — web editing and design
JAVASCRIPT	Familiar — basic web interactivity
Deep Learning	
PYTORCH	Advanced — research and production
TENSORFLOW	Intermediate — prototyping
CUDA	Advanced — GPU acceleration
HUGGINGFACE	Advanced — NLP transformers
TENSORBOARD	Model diagnostics
Software & Tools	
LINUX (MANJARO, DEBIAN)	Daily driver and server management
GIT	Proficient — daily use and collaboration
DOCKER	Proficient
KUBERNETES	Intermediate
TEX	Expert — academic writing
UNITY	Familiar — simulation and UI
Theoretical Knowledge	
OPTIMIZATION	Applied mathematical methods
PROBABILITY THEORY	Statistical modeling
ALGORITHMS	Design and analysis
Languages	
ENGLISH	Near-native
PERSIAN	Native
AZERBAIJANI	Native
TURKISH	Basic — conversational ability

TEACHING EXPERIENCE

WINTER 2022	Deep Learning <i>Institute for Advanced Studies in Basic Sciences</i> Designing and grading computer and manual assignments.
FALL 2021	Practical Introduction to Computer Science <i>Institute for Advanced Studies in Basic Sciences</i> Lecturer assistant, designing and grading computer assignments.
SPRING 2020	Information Retrieval <i>Institute for Advanced Studies in Basic Sciences</i> Grading computer and manual assignments.
WINTER 2020	Advanced Programming II <i>Institute for Advanced Studies in Basic Sciences</i> Lecturer assistant, Holding exercise sessions, designing and grading computer and manual assignments.

Naghil Noghoul
Programmer

DEC 2018 – OCT 2019

Programmer and tech team lead in the development of Naghil Noghoul game-app. Naghil Noghoul is a storytelling game-app for kids aged 3 – 12. Developed with Unity game engine and C# programming language.

Chakavak Music Academy
Programmer

JUL 2018 – SEP 2019

Design and implementation of a learning management system (LMS) for Chakavak Music Academy, Zanjan, Iran.

PUBLICATIONS AND CONFERENCES

PerSpaCor: Correcting Space and ZWNJ Errors in Persian Text with Transformer Models

Matin Ebrahimkhani, Ebrahim Ansari

Proceedings of the 15th International Conference on Recent Advances in Natural Language Processing (RANLP 2025)

Developed and evaluated BERT-based sequence labeling models for correcting Persian spacing and ZWNJ errors. Trained on over 12.7M annotated words from Bijankhan and Peykare corpora, achieving a macro-average F1-score of 97.26% (98.38% with user feedback). Proposed novel classifier architectures, advancing Persian NLP and demonstrating state-of-the-art performance on this fundamental text normalization task.

OTHER INTERESTS

Programming on free will, Playing percussion instruments, Traveling, Overlanding, Camping, Science, Movies, Music, Poetry.

FALL 2019

Advanced Programming I

Institute for Advanced Studies in Basic Sciences

Lecturer assistant, Holding exercise sessions, designing and grading computer and manual assignments.

FALL 2018

Digital Logic Circuits

Institute for Advanced Studies in Basic Sciences

Grading computer and manual assignments.
